As you requested, I am reporting here the results of the PCB analyses that we have just obtained on five samples of recent Aroclor 5460 production. The corresponding Aroclor 5060 and Santowax R samples that came with these Aroclor 5460 lots will be analyzed shortly and the results on the whole set will be sent to the recipients of this memo.

The lot numbers were not given on these five sets of samples, so I can only identify them by production date.

Aroclor 5460		PCB Content
Set No.	Production Date	Wt. %
1	3/27/70	0.38
2	3/28/70	1.8
3	4/2/70	0.34
4	4/7/70	0.42
5	4/8/70	0.48
