Dr. Robert A. Kehoe,
University of Cincinnati College of Medicine,
Cincinnati, Ohio

Re - Telepnev v. Tide Water Associated
Oil Company - IAC SF No. 51339

Dear Dr. Kehoe:

This will acknowledge receipt of your letter of 4 inst., for which I thank you.

I regret that any reference to your professional connections was not wholly correct.

As you know, the reporters taking the shorthand record are not of the very best and they probably improperly quoted what you said.

The references in my brief to your qualifications were taken practically verbatim from the typewritten record furnished by the Commission's reporter. My brief stated:

"he (Dr. Kehoe) has a friendly professional relationship with the United States Public Health Service."

This was based upon the transcript of the testimony on February 28, 1938, page 118, line 9, as follows:

"Q And in connection with these studies, have you had very much connection with the Public Health Service of the United States?

"A I have no professional connection with the United States Public Health Service, only a friendly professional relationship * * *".

The other reference in my brief to the effect that you "have been investigating and reporting to the United States Public Health Service of cases of complained or alleged injury on the part of public garage mechanics, filling station employees engaged in contact with lead in gasoline" was taken verbatim from the transcript of the hearing on September 2, 1936, page 64, line 14.

I was glad to read in your letter, however, that you

Dr. Robert A. Kehoe

discrepancy was a matter of no consequence.

To date, the Commission has asked for two extensions of time within which to file their Answer, and they have under consideration the question of reopening the case in the Commission, in which event they might or might not reverse the Award against us.

I shall keep you currently advised.

With kind regards, I am

Sincerely yours,

DANIEL W. HONE
