|-------------|-------|
| Temperature | 25°C  |
| Pressure    | 1 atm |
| Time        | 1 h   |

**NET: 5 gallons**

**DIRECTIONS**

Clean surface carefully by sweeping or stripping. Do not surface in dry, hot weather before tilling. Surface may be applied by broom or spray. Use large brooms, or if sprayed, use a nozzle designed for heavy-bodied material. Apply at rate of 2 gallons per 100 sq. ft. of surface. Best results are obtained with heavy coating. Do not add material over 100'. Do not feed, even if dust-free.
