DOCUMENT DESCRIPTION: Memo RE Paco Store Inventory

KELLY-MOORE MEMO

TO Dick Nachlinger FROM Svend Stubb DATE 11/23/77

SUBJECT PACO STORE INVENTORY

As you are aware, new Federal regulations to be published on November 28th are expected to ban the use of asbestos in Paco type products. It is expected that the regulations will prohibit not just the manufacture but also the sale and use of asbestos-containing drywall products. Therefore, it will be necessary for us to dispose of all asbestos-containing Paco products prior to December 28th, 1977.

In order for us to properly plan a changeover to a non-asbestos product, we must know what we have in our stores. Could you please arrange for each store to take an inventory of all Paco products and submit this inventory to my office.
