

A new, versatile stabilizer from National Lead.

Lectro® 80.

Use it with any wire formulation.

Use any plasticizer. Any resin. National Lead's new Lectro® 80 will stabilize them effectively. And with good electrical values.

Versatility like this is built into new Lectro 80. It's the universal stabilizer you can use in 60° through 105° wire. And anything in between.

Economy, too, is built into new Lectro 80. Low cost and low gravity... 3.5 to be specific.

Want more information? For brochure on Lectro 80, write National Lead Company, Room 3235, 111 Broadway, New York, N. Y. 10006. (Canadian representative: Enelchem Products, Division of Canadian Titanium Pigments Ltd., 1401 McGill College Avenue, Montreal, Quebec.)
