

AMERICAN BRAKEBLOK DIVISION

August 30, 1973

TO: ALL NAPA REBUILDERS

BULLETIN NO.: R-73-04AB

SUBJECT: NAPA Brake Systems Catalog

We are preparing an NAPA Brake Systems Catalog, which will not only include Relined and New Brake Shoes, but other parts used in the brake system such as Wheel Cylinders, Master Cylinders, Brake Hose, Seals, Bearings, Drums, etc.

This Catalog will replace our existing Brake Shoe Catalogs and make it necessary for all NAPA Rebuilders to use the same part numbers. The following are a list of variations in our present Relined Brake Shoe Catalogs and the part number we recommend be used.
