Wow. That's really unfortunate - I just told six PUC commissioners from across the U.S. yesterday that we were confirmed.

Is there no way to meet on the 16th, as planned?

Hi Sydney.

Sorry for the delay. 16th looks better for the PUC folks

That still work?

Good afternoon Paul,

Hopeful that this finds you well! Ken sent over the below email from you about getting a meeting set up in June. As it stands now, it looks like the morning of the 16th or the

19th we could find some time. Would either of those work? I'll look forward to coordinating with you!

Thank you!

Ken,

Great talking to you today. Looks like we are all on the same page.

Here's the proposed agenda for the first meeting.

We are all available in the second half of June.

As far as agenda items for the first call, we identified several points to consider.

-

1. The economic impact of the regulation proposed under the Obama administration and what the changes would be under the new version of the regulations current being proposed by EPA.

2. Discuss ways to increase the involvement of state commissions and state environmental and energy offices in the rule making process and ensure that it happens early in process.

3. What does the EPA Administrator wish to accomplish by establishing this group? What would be process for adding new topics as issues arise?

4. What does the framework look like going forward?

5. What are the EPA's current thinking or plans for dealing with Coal Ash?

Thanks so much for your reply Sydney. We certainly understand. As an alternative, would it be possible for 3 to 5 grower leaders in at some point to meet the Administrator over that period? These would be the people responsible for some of the largest egg producing operations in the country with multiple farm sites and more than 50 million laying hens under production.

Best!

Tom Hebert

Good afternoon Mr. Herbert,

Thank you for reaching out to me and thank you for the invitation for Administrator Pruitt to keynote! Unfortunately, we are unable to participate this time due to conflicts on the schedule those days. Please do not hesitate to reach out to us in the future though! Hopeful you have a great rest of your week.

Best,

Sydney

Subject: Invitation to Administrator Pruitt to Offer a Keynote Address to the Nation's Egg Producers in DC on May 17, 18 or 19, 2017

Dear Ms. Hupp,

I hope you are well and settling in nicely at EPA.

Please see attached a letter inviting the Administrator to offer a keynote address to the nation's egg producers at a meeting being held by United Egg Producers (UEP) here in Washington, D.C. on May 17, 18 or 19, 2017. Details are included in the letter.

UEP's farmer members raise hens that produce about 95% of the nation's eggs, and most of that egg production will be accounted for by the 150 or so egg producers in the audience listening to Administrator Pruitt's address should he decide to do this. These producers and UEP have been at the forefront of several US EPA rulemakings and policies that are central to how farmers operate today; Clean Water Act matters involving the Concentrated Animal Feeding Operations (CAFO) rule, WOTUS rule and the Chesapeake Bay TMDL as well as Clean Air Act and CERCLA/EPRCA matters as they relate to ammonia and other air emissions. These are tremendously important issues that relate directly to how egg producers can continue to proudly meet their environmental responsibilities and the growing demand for eggs, and in general make their contribution to the nation's safe, wholesome and abundant food supply.

These farmers would appreciate hearing about Administrator Pruitt's plans for US EPA's environmental programs so they can better understand how they could contribute to the success of his efforts and what these plans might mean for their farms and businesses.

Please let me know if you have any questions or if the Administrator can accept this invitation.
Thank you in advance for your consideration of this request.

Best!

Tom Hebert
