Location **Danbury**
Area

Date **May 10, 1985** **RECEIVED**
Originating Dept. **HS&EA** **MAY 14 1985**
Area **M. J. FRIAR**

Copy to **Mr. L. A. Crisorio**

Subject **Herman Dendinger vs. UCC
et al, (Chrysler Plastics
Products Company)**

I have reviewed the UCC Sales Accounting Records as regards to the sale of PVC to Chrysler Plastic Products, Sandusky, Ohio for the years 1968 through 1980. Recorded PVC resin sales are:

<u>Year</u>	<u>Comment</u>
1968	No sales recorded.
1969	Flexol plasticizers sold.
1970	Flexol plasticizers and Glycol Fluids.
1971	Plasticizers, Glycol Fluids and Methyl Ethyl Ketone.
1972	Suspension PVC Homopolymer - 40,500 lbs. in November and 40,450 lbs. in December. Solution Vinyl (PVC) VYHH - 2,000 lbs.
1973	Nonsolvent (PVC) Copolymer VYNW-5 - 11,000 lbs. Solution Vinyl (PVC) VYHH - 16,000 lbs.
1974	Nonsolvent Copolymer VYNW-5 - 9,000 lbs. Solution Vinyl VYHH - 12,000 lbs.
1975	Nonsolvent Copolymer VYNW-5 - 3,800 lbs. Solution Vinyl VMCH - 50 lbs.
1976	Nonsolvent Copolymer VYNW-5 - 17,000 lbs. Solution Vinyl VMCH - 2,750 lbs. Solution Vinyl VYNS-3 - 200 lbs. Solution Vinyl VYHH - 6,750 lbs.
1977	Nonsolvent Copolymer VYNW-5 - 11,000 lbs. Solution Vinyl VYNS-3 - 2,250 lbs.

UCC
043912

<u>Year</u>	<u>Comment</u>
1978	Flycol fluids only.
1979	Latexes and glycol fluids.
1980	Solvents, latexes and glycol fluids.

Union Carbide Corporation did not manufacture nonsolvent copolymer after September 5, 1977.

Chrysler Plastic Products at Sandusky, Ohio is recorded as Chrysler Corporation by EPA and is said to be a coated fabrics plant with four calendar lines.

I think the nonsolvent copolymer and the solution vinyl resins were used to apply a glossy finish to the coated fabric using some form of solvent coating system. If UCC had not gotten what is obviously a trial run at Chrysler using its suspension PVC resin in 1972, we could make a good case for separate consideration in the litigation. A trial run of suspension PVC resin is a step toward being accepted as a reliable supplier. Since we sold no suspension PVC resin after that, we were apparently not an acceptable supplier.
