 R. J. Schuttler, Niagara Falls

The Program Committee is asking for input of topics of interest for the 1982 meeting.

The initial contact from H. Rzempoluch, Plant Manager of Pantasote's Pt. Pleasant, W. Va. facility (304-675-1020) included topics resulting from a poll at the plant. A copy list of these is attached.

If you will pass along your suggestions, I will forward them to the Program Committee.
