indiscriminately.

Q When was that, Doctor?

A Many intervals during the course.

Q March of 1981, would you read the last paragraph to the jury.

A This is in March of 1981. Despite the absence of treatment, Mr. Vandergucht's disease seems to be indolent at that point.

Q Let me stop you right there. I didn't know what that word meant when I read that, but I looked it up in the dictionary and it indicates without pain.

Is that your understanding of what indolent means?

A Yes.

Q So in March of '81 he was apparently without pain according to this doctor?

A Yes.

Q He wasn't feeling any pain?

A Yes.

Q All right. Doctor, Mr. Vandergucht had a reaction to the chemotherapy, didn't he?
