

...deserves a Dutch Boy  
quality painting job

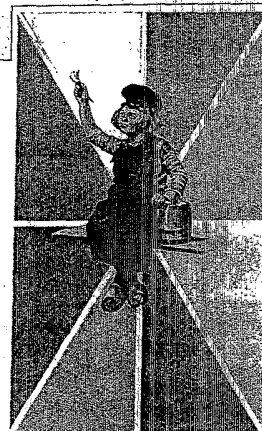

Moreover, Dutch Boy makes for standardization and its resulting economies. With Dutch Boy White-Lead, flattening oil and a few tinting materials, it becomes a simple matter to obtain the desired color, for all rooms to be decorated or repainted.

Equally important as any of the above advantages is the washability of paint made with Dutch Boy White-Lead and flattening oil. It can be washed repeatedly without injury to the surface.

In view of all these points of superiority, it is only natural that Dutch Boy should have an enviable reputation for high quality among leading hotels.

**NATIONAL LEAD COMPANY**
