Mr. Frank Bilton  
Foseco Minsep Inc.  
20200 Sheldon Road, Erockpark  
Cleveland, Ohio 44142

Dear Frank,

The Asbestos Information Association has provided us with documents relative to asbestos, which we thought might be of interest to your sales and technical departments.

There appears to be a wealth of mis-information published in the media relative to health hazards of asbestos dust.

Please note the attached published data pertaining to thermal decomposition of asbestos. We would assume this could be of interest to mills and foundries.

Best regards,

Sincerely yours,

NORTH AMERICAN ASBESTOS CORPORATION

President
