Dutch Boy
Satin Eggshell

In an odorless type semi-gloss interior enamel made from Nobody's silly dreams—an exclusive product of *Dutch Boy* research. It comes in the same beautiful colors as new *Dutch Boy* Wonnover—the modern Nobody flat finish.

Dutch Boy SATIN EGGSHELL is wonderfully easy to apply with brush or roller and, since it sets slowly, is ideal for painting large surfaces. It dries smooth and hard to a modern, lustrous finish ideal for woodwork and trim.

Use SATIN EGGSHELL on any interior surface where water-resistance and frequent washing are desired—kitchens, bathrooms and playrooms. Also on interior cabinets, doors, windows, woodwork and trim, for maximum resistance to soiling and wear. Your dealer will recommend the correct *Dutch Boy* primer or undercoat, where needed.
