CONFIDENTIAL

Register of Cases of Angiosarcoma of the Liver Due to Vinyl Chloride

Review Date - February 1991

As you're aware, Dr. Brian Bennett left ICI on September 30, 1990. The responsibility for maintaining the ASL Register was passed on to me. All data has been reviewed, updated and prepared for the 1991 Register based on information supplied by Dr. Bennett. Your suggestions for change, additions/deletions for the future Registers will be appreciated.

Respectfully Submitted,

J. R. Drumwright, M. D.

PREFACE: Acknowledgements, Significant Changes, Comments & Requests

- 1) The four new cases in the Register are: Australia 01; Germany 40; Italy 08 & 09. The Australian case is the first notified from that country. (Currently, two cases in the US are under review for confirmation of diagnosis.)
- 2) There have been no deletions for the 1991 Register.
- 3) Amendments from previous Register include new page for Australia; Table 2: Total Western Europe cases increased to 99 with world total to 161 cases of ASL; Table 4A, 4B, 4F, 5, 6, 7, 12: Recalculations due to new cases .
- 4) Based on current data, the following cases are still alive: France 15 & 28; US 33 & 36. If new information is available for these cases, please advise me.
- 5) Thanks are in order for new cases, information/clarification and reports to: Drs. Friedel; Johnson; Northrop; Lagast; Richard; with special thanks to B. Bennett.
- 6) Research: I respectfully request that each recipient of the Register continue to keep me informed of any new cases, etc. and/ or provide me with the name and address of the appropriate individual who can supply the necessary details. (A blank sheet is enclosed at the end of the Register to assist you in reporting the appropriate information.) Also, please continue to provide any relevant information about earlier cases, factory data, etc.) as well as individual retirements, changes of address, etc. for the Register mailing list.

Australia	<u>1</u>
Total	<u>161</u>

ie	Western Europe	99
	North America	52
	Rest of World	10
	Total	<u>161</u>

* Omit 1t01 - atypical case of PVC bag extruder.

** Includes Fr15 and 28, US33 & 36, who are still alive, so far as known.

~~****~~ Includes one monomer worker.~~*****~~ Includes two monomer workers.

***** Excludes E26 and US 24: deleted.

(Review Date - February 1991)

TABLE 3Pattern of ASL Cases by Factory(a) W Europe

Of the 99 cases in W Europe, 80 have occurred in clusters at 10 factories. Of the 38 German cases, 34 have occurred in clusters at 4 factories.

<u>ASL Cases</u>	
Dynamit (now Nula), Troisdorf, Germany	19
BP, Barry, UK	11
Atochem (formerly Chios Chimie, formerly RP), St Fons, France	11
Wacker, Burghausen, Germany	10
Atochem (formerly PCUK) Brignoud, France	8
Kemanord, Sundsvall, Sweden	5
ICI, Millhouse, UK	5
Solvay, Tavaux, France	5
CWM/Nula, Marl, Germany	3
Lonza, Waldshut, Germany	3
	80

NB: There are 32 pre 1962 PVC plants in W Europe; 20 of these have had ASL cases (Ref Table 8)

(b) N America

Of the 52 cases in N America, 41 have occurred at four factories out of a total of 55 factories. In N America 41 plants have not had ASL cases.

<u>ASL Cases</u>	
BFG, Louisville, US	15
BFG, Shawinigan, Canada	12
UCC, S Charleston, US	9
Goodyear, Niagara Falls, US	5
	41

NB: There are 29 pre 1962 PVC plants in N America; 13 of these have had ASL cases (Ref Tables 9 & 10)

(c) Rest of World

Nine of the cases are believed to be in one cluster of 4 and two clusters of 2 cases.
Australia 1
