

December 6, 1971

Dr. Robert B. Dahlgren  
Assistant Leader  
Patuxent Wildlife Research Center  
Bureau of Sport Fisheries and Wildlife  
Laurel, Maryland 20810

Dear Dr. Dahlgren:

The study to which you refer in your letter to Monsanto's Jack T. Garrett dated October 26, has recently been completed by Industrial Bio-Test Laboratories, Inc.

The investigators are now in the process of preparing the final manuscript which will be forwarded to the editors of Toxicology and Applied Pharmacology, the official journal of the Society of Toxicologists. We are very hopeful of early publication, perhaps as early as January or February, 1972.

As soon as the manuscript has been accepted I will send you a preprint which you may quote with appropriate reference that the paper is in print.

I hope the slight delay which I anticipate will not seriously inconvenience you.

If I can be of further service please let me know.

Sincerely,

W. B. Papageorge  
Manager  
Environmental Protection

WBP/er
