Attached is a print of the subject specifications (copies also sent to Mr. Woods and Mr. Gresham) for your files and for appraisal as to whether our product will comply. An earlier issue of this document (that of 4/1/65) was examined by the WOK Plant in April of 1965. D. E. Harris answered with his memorandum of 5/3/65, to me. The present issue seems to be exactly the same as the earlier one except for a re-dating of it.

It is realized that the comments made by Mr. Harris are probably equally valid at this time, but this will give you an opportunity to have the latest issue of the specification on file and to examine it in detail.

Please furnish your comments as to the acceptability of it to us.
