Mr. W. M. Tomc - DPJ

Dr. G. E. Pekarek - DPJ

Mr. C. W. Wright

Mr. J. Sainsbury

SUBJECT CHICAGO ORDINANCE LEAD LAW

In response to Mr. W. D. Kinsell's direction of C&R policy relative to Chicago and Federal requirements, I have met with Dr. G. E. Pekarek and Mr. W. M. Tomc and have set priorities for formula conversions.

Mr. J. D. Russell and Mr. J. S. Dumble have reviewed and approved these priorities which are attached. Note that the period of "weeks" under priorities #1 and #2 are periods of formula availability for testing or marketing as may be determined. It may be assumed that "October" under #3 priority indicates a point of readiness for marketing.

Dr. G. E. Pekarek's lab is involved only with the 3600 and 3040 lines, the revised formulas for which will be ready shortly. He has prescribed pre-testing, EXM's and quantities as follows:

|           |          |          |    |         |
|-----------|----------|----------|----|---------|
| EXM-72113 | (Y-3600) | -        | 50 | Gallons |
| "         | 72114    | (Y-3625) | -  | 100 "   |
| "         | 72115    | (Y-3040) | -  | 50 "    |
| "         | 72116    | (Y-3045) | -  | 100 "   |

We will issue 186's and will press for production so that performances are confirmed during early spring adverse drying conditions.

Solvent paint pre-testing programs remain to be developed. I will do so with S. T. Bowell and W. M. Tomc.

Safety colors Y-4510 Orange, Y-4520 Red and Y-4540 Yellow (Lead Pigments) will be extremely costly conversions. To a lesser extent so will Y-4553 Deep Green, Y-4554 Medium Green, Y-4560 Medium Yellow and Y-4576 Deep Orange.
