WHAT YOU LOSE
in using cheap paint

CHEAP PAINT cracks, crumbles, blisters, and is worthless in a short time.
—takes more gallons to cover the surface.
—costs more to apply, for it will not spread as well as good paint.
—fails to protect,—therefore helps rot your property.

PURE PAINTS last five or more years.
—cover more surface,—you buy fewer gallons.
—spread *easily* and save labor costs.
—protect property from rot and decay.
—keep *your home* looking its best at all times.

REASONS WHY Fuller's Pure Paints are the best.
—a perfectly equipped plant at South San Francisco occupying 27 acres.
—latest modern machinery, best methods.
—trained paint chemists, skilled superintendents, intelligent workers.
—five independent tests before paints are marketed.
—large buying power of the finest raw materials.
—*made for Bay Cities weather conditions.*
—43 years' experience in the manufacture of *good* paints.

FULLER'S Pure Prepared Paint and Fuller's Phoenix Pure Paint are worth the price, because they are made from Pioneer White Lead (chemically pure), Pure Zinc, Pure Linseed Oil, and Fuller's Pure Colors in Oil, perfectly mixed in correct proportions.
