Hubbard v. Standard Oil Company of New Jersey

Dr. Robert A. Kehoe,
University of Cincinnati,
College of Medicine,
Cincinnati, Ohio.

Dear Dr. Kehoe:

We have a case pending in eastern North Carolina where a filling station operator is claiming injuries resulting from contact with gasoline containing tetraethyl lead. While we are satisfied the case is entirely without merit, we must give it the usual careful preparation. In a discussion just completed with our North Carolina counsel Messrs. MacLean, Pou & Emanuel of Raleigh, who will try the case, they expressed considerable interest in the medical testimony in the [REDACTED] case. My file shows you have my transcript of that testimony. May I ask you to send that transcript to MacLean, Pou & Emanuel, Lawyers Building, Raleigh, North Carolina?

I have also said to our North Carolina counsel that I felt sure arrangements could be made for them to confer with you before the case is reached for trial in October. I trust you will be willing to help them out. I shall mention the matter to Mr
