☐ Distributor ☐ Customer

☐ Prospect

Firm Borg-Warner- Spring Div Date of Call 21 Feb 78

Address _____ Phone ( )

City Bellwood State Illinois Zip Code _____

Visited Howard Okubo Title _____

_____ Title _____

_____ Title _____

REMARKS

Howie says that Corp Hq is shying away from asbestos in any new work that is to be done. He says that at a recent meeting thhy forecast that in 10 years asbestos will be totally replaced by metallic fibes in friction materials. Both Howie and I doubt that.

Largely a cas of OSHA worries. Howie ays that as far as he knows B/W has neverhad a problem in one of their plants as far as ssbestos is cacerendd.
