

Douglas I. Frost, Ph.D.
17 Ross Road
Schectady, New York 12308

Dear Doctor Frost:

I promised you at Columbia to send you a copy which I gave in 1960.

Much work has been done since that time on the ramifications of the problem of lead in industry for many years with the growing problems of industry of the growing staff of the Kettering Laboratory hadn't time for the study of data and the writing. I am now engaged, in my retirement, with further work am slow because of physical disabilities from old age, soon, especially the cataracts of my old eyes, for a time.

I send you a paper-back copy of the Lectures I have exhausted. It was a pleasure to meet you and

With regards,

Sincerely,

Robert
Professor
