Mr. J. Coleman Weber
Manager
Product Acceptability
Monsanto Industrial Chemicals Co.
800 N. Lindbergh Blvd.
St. Louis, MO 63166

Dear Mr. Weber:

We wish to express our thanks and appreciation for Monsanto's gift toward our PCB research project.

We are about to slaughter the calves born to cows fed Aroclor 1254. This will conclude the live animal part of the project. Work remaining then will be the analysis of the tissues taken at slaughter of all animals involved.

We will forward copies of all research papers from the project.

Sincerely,

R. J. Everson, Ph.D.
