but it is much cheaper to grow them in a seed box at home.

There is little difference, but size, between the grandiflora and the dwarf types, the first-growing about 12 inches and the smaller ones 8 inches in height. The smaller types are best for bedding and masses of color, and for somewhat more free-flowering.

Because the phlox make such good cutting material, they are often planted in rows in the vegetable garden, making a handsome display there, and furnishing an abundance for bouquets. The grandiflora types make the best showing here.

MASONS WILL CONFER- THIRD DEGREE TONIGHT

The third degree of Masonry will be conferred upon a single candidate tonight by the Masonic lodge in the Monterey temple. The ceremony will begin at 8 o'clock and will be followed with refreshments. All sojourning Masons are cordially invited to attend.

Alisal District to Have Post Office

SALINAS, May 8—The rapidly growing Alisal district, east of Salinas, is going to have its own post office.

This was disclosed when Postmaster John P. Souza called bids yesterday for establishment of a contract branch of the Salinas post-office.

Bids must be submitted by May 15.

The office will offer complete postal facilities.
