FROM (NAME & LOCATION) E. E. Stewart, W. G. Krummrich Plant Bill Engman

DATE : September 13, 1972 CC:

SUBJECT : POLYCHLORINATED BIPHENYLS AND THE ENVIRONMENT

REFERENCE :

TO : Mr. George C. Rankey
General Offices
BlNC

The attached memo was prepared as an "in hand" document that could be passed to the federal authorities if we were asked about our current program at WGK to control PCB discharges to the environment - The other memo you had is related to history at WGK.

Please review, polish, rearrange, etc. as you are doing with the other memo.

I have not distributed this to anyone. After you "do your thing" with this, I will distribute to obtain blessings from environmental group, law and others.

Thanks,

Ed
