

BERNITZ Air-Cooled SPREADER STOKER PIERS

... for Long Life and Clinker-Free Service

This recent Bernitz development in the field of air-cooled refractories fulfills a definite need for a long life pier...one that will remain clinker-free and retain its initial shape after long, hard service.

Bernitz "Carbofax" air-cooled piers are designed to fit the specific needs of each type of spreader stoker. In every case, proper distribution of fuel can be depended on.

Easy erection assured because piers are of correct size and shape and no cutting in the field is required.

Send for illustrated literature giving complete details. Ask for Bulletin B-350.

BERNITZ FURNACE COMPANY
89 BROAD STREET, BOSTON 10, MASS.

Branch Offices
350 Madison Avenue 4700 Frankford Avenue
