INTER-OFFICE COMMUNICATION

SUBJECT: Asbestos Labeling

DATE: 1989 Jan 23

MESSAGE:

Alcoa's Asbestos policy covers a lot of information much of which is related to removal jobs, exposures and medical surveillance for people involved in that work. The attached memo repeated our policy on labeling intact asbestos insulation. This concept has been communicated several times following promulgation of OSHA's New Asbestos Standard in 1986. I have also attached a decision tree that I put together for Charlie DiMascio to describe the decision process for existing asbestos in Alcoa facilities.
