Mr. W. B. Papageorge - WPAPA
Mr. E. P. Wheeler - EWHEE
Mr. G. L. Bratsch - KRUMMRICH

As you know, Dick Krantz, Globe-Democrat reporter, is working on a PCB story. Last week, Dick called asking several questions about PCB (you have previously received press query sheets).

Since I felt Krantz wanted to write a factual story, I invited him out to the General Offices to interview Messrs. Mason, Wheeler and Papageorge. The interview was held on Thursday morning, June 4. At the close of our discussion, Krantz asked for a summary paragraph on how the PCB issue has affected Monsanto. I gave him the attached copy today.

Krantz plans to write the story today (Monday) and he expects it will appear in the Globe-Democrat "sometime this week, probably Tuesday or Wednesday."

I thought you might want to be alerted to watch for the story.
