

Crane Co.

**BOILERS, RADIATORS, FURNACES, VALVES, FITTINGS, PIPE, WATER
AND STEAM SPECIALTIES, CONTROLS AND PLUMBING MATERIALS**

General Offices: 836 South Michigan Avenue, Chicago 5, Illinois

Nation-Wide Service Through Branches, Wholesalers, Plumbing and Heating Contractors

CRANE OFFERS EVERYTHING IN HOME HEATING

There's a Crane Boiler to fit any home—regardless of its size—whether coal, coke, oil or gas is the preferred fuel or whether the owner wants steam or hot water heating. These boilers are styled for beauty, dependability and simplicity, and they incorporate many new engineering features that assure greater fuel economy and operating efficiency.

Crane also builds boilers for many types of non-residential buildings. In addition, the Crane line includes everything else needed for heating systems—furnaces, stokers, oil burners, radiant baseboard panels, radiators, convectors, controls, water and steam specialties, pipe, valves and fittings.

For full information on Crane Boilers and other heating equipment, consult your Crane Branch or Crane Wholesaler.

CRANE FORTY BOILER

CONTROLS

The complete line of controls includes thermostats, stack switches, limit switches, aquastats, damper controls—everything necessary for a heating system.

CRANE RADIANT BASEBOARD HEATING

Steam or hot water is circulated through the baseboard panel—no radiators or grilles are necessary. Will give many advantages: more room space; more uniform distribution of heat; easier cleaning. Recommend it to customers who are planning new homes or remodeling.

CRANE RADIATORS

COMPAC RADIATORS: Slender in line—modern in design—give more heat—use less space. For free-standing or recessed installation, steam or hot water.

Built in sizes to suit every need—in 3, 4, 5 and 6-tube types of 6 to 56 sections. Replace ordinary radiators with little or no change in piping.

STOKERS

Newly designed and engineered. Assure uniform heating with minimum fuel consumption and minimum attention. Wide range of sizes.

WATER SPECIALTIES

Crane hot water specialties are made to suit every installation. They include water heaters, circulators and flow control valves—all top-quality equipment.

OIL BURNERS

Newly engineered. Crane oil burners provide heating comfort at low fuel costs. Simplified design and sturdy construction reduce maintenance.
