Dear Sir:

Referring to the writer's conversation with you on the afternoon of February 11, regarding truck shipments of ETHYL Fluid via truck over the Camden bridge, we wish to express our appreciation for the manner in which you have co-operated with us in our efforts to prevent any promiscuous sampling of a dangerous material. If there is any way in which we may reciprocate your favor, please do not hesitate to call upon us.

Yours very truly,

ETHYL GASOLINE CORPORATION
