Subject: JAMES HARDIE & COMPANY
SYDNEY, AUSTRALIA

We have completed our label design for use on Transite Pipe and have agreement on it with Atlas. They will use the same design.

There is a slight modification being made in the translation into French and then the labels will be printed. Please note that while the attached copy shows black type on a white backgrourd the labels will be printed in reverse with white lettering on a black background.

I will send you some actual samples the moment we have them off the press.
