Re; Peterson vs Union Carbide Corporation
Draft of R. N. Wheeler, Jr. Report

Dear Bob;

Enclosed is a working draft of the subject report ready for typing. When it has been redone send me a copy along with any changes you may suggest.

I am still seeking a copy of Environmental Health Perspectives for October, 1981. Orders for it have been placed with UCC and with the local library system. They both promise results in several weeks. The publication reports on a VC-PVC symposium held in 1981. Review of it may require some changes in the subject report but I am inclined to doubt it.

Very truly yours,

R. N. Wheeler, Jr.
