use AROCLORS in your HIGHWAY PAINTS

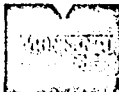

Now you can get rapid drying, long wear, exceptional durability to weather, and high resistance to alkalinity of concrete by using Monsanto's Aroclor in your highway paints.

Aroclor 1254 increases paint flexibility

and acts as an excellent plasticizer. Aroclor 5460 in your formulation is an excellent resinous fortifier, increasing weather resistance and all-round durability. Aroclors are economical.

Aroclor Reg. U. S. Pat. Off.

For more information ask for Technical Bulletins P-124 and P-126 from
MONSANTO CHEMICAL COMPANY, Phosphate Division, 1700
South Second Street, St. Louis 4,
Missouri.
