

1 meeting.

2 And it was the fact that Dr. Peele had cut
3 in his fabrication shop various different types of
4 high temperature insulations and came to the
5 conclusion that Kaylo was the least dustiest of the
6 insulations he looked at in his facility.

7 Q Did it conclude whether or not it could be
8 used safely?

9 A Yes, that was his conclusion.

10 Q Did he make conclusions that other products
11 couldn't be used safely?

12 A In his report he did, yes.

13 Q When the Kaylo was shipped out, was it ever
14 shipped out with any kind of canvas on it or metal on
15 it?

16 A Yes. Our pipecovering that would go around
17 a one-inch pipe up to a 12-inch diameter pipe all
18 contained some type of a jacketing, factory-applied
19 jacketing.

20 Our standard product on the pipecovering of
21 those sizes contained a canvas factory-applied to
