Kaylo ever had.

Q If 85 percent magnesia pipecovering product had 15 percent asbestos in it and Kaylo had 15 percent asbestos in it, do you agree that they would be comparable?

A Not necessarily. Depends on how much tighter one held it than the other.

MR. McGOWAN: Page 128.

BY MR. McGOWAN:

Q In the 1950s, in the period of 1953 to 1958, you knew that Owens-Corning was selling the Kaylo pipecovering product, correct?

A Nobody ever specifically told me that.

Q But you knew that?

A Well, I assume it was a part of the line, I guess, you might say.

Q And at the time in the 1950s when you knew that Owens-Corning was selling the Kaylo product --

A When did Owens-Corning start selling?

Q 1953. During that period, 1953 to 1958, am I correct that you knew that that was part of the
