

" 8 Years of Constant High Temperatures

*and our
Rockbestos A.V.C. is
Still Going Strong!"*

"In 1940, when we revamped our boiler room, we rewired our lighting and power systems completely with Rockbestos A.V.C. wire and cable.

"The asbestos-varnished cambric insulation continues to do its job under constant high temperatures approximating 140°F.

"Where ordinary wire and cable gave us frequent trouble, Rockbestos A.V.C. gives entire satisfaction.

"Whenever we have need of wire or cable for use under extreme temperatures you can count on us specifying Rockbestos!"

Read HOW and WHY the Plant Engineer of a Large Rubber Company Specifies Permanently Insulated Wire and Cable for Hot-Spot Circuits.

This tested-in-service story is one of many which proves that you can protect your circuits by using the right wire for a tough job — specify Rockbestos A.V.C. Write for the new catalog showing all types.

For Better Combustion Practice Use

ENCO INTERCHANGEABLE ATOMIZERS

Interchangeable Enco Fuel Oil Atomizers are improving combustion practice in more and more progressive boiler rooms. Designed for exceptionally wide capacity ranges with all grades of liquid fuels, they eliminate burner tip changes, through the entire load range:

1. *Wide Range Mechanical Atomizers*—With a capacity range of 10 to 1—controlled manually at atomizer or automatically from remote station—*constant high oil pressure at atomizer insures efficient atomization over entire load range without recirculating or returning oil.*
2. *Steam or Air Atomizers*—Capacity range of 10 to 1—controlled by manual or automatic pressure regulation.

Both atomizers are designed to fit the Enco Interchangeable Atomizer Support. Enco Straight Mechanical Atomizers are also available.

Enco Fuel Oil Atomizers are built to give most economical, efficient service for any type pulverized coal, gas or oil-burning air register as

well as for stoker-fired and industrial type furnaces. They can also be used independently for special applications.

The Engineer Company maintains a research and planning staff to help you improve your combustion practice. Literature completely describing any Enco product will be sent on request.

THE ENGINEER COMPANY
ALSO PRODUCES:

Enco Air Registers
Enco Fuel Oil Pumping and Heating Units
Enco Automatic Oil-Electric Ignition Systems
Enco Automatic Combustion Controls
Enco Streamline Baffles
