

LEAD INDUSTRIES ASSOCIATION

292 MADISON AVENUE

NEW YORK 17, N. Y.

March 23, 1961

SUBJECT: ANNUAL MEETING

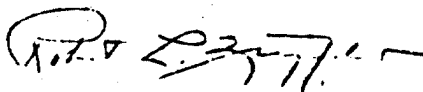

To Members of the Lead Industries Association:

Attached is a preliminary program of the annual meeting of the Lead Industries Association to be held at the Drake Hotel, Chicago, on May 2-3, 1961. (Also enclosed is a copy of the American Zinc Institute's program for the meeting to be held on May 1-2, 1961.)

For your convenience, an advance registration card is enclosed. By filling in and returning to us this advance registration card, together with your check covering the activities which you expect to attend, your registration and tickets will be awaiting you at the meeting registration desk in Chicago and you will save time at the meeting. However, if you prefer, you can register in advance and pay at the meeting.

Hotel reservations should be made directly with the Drake Hotel, Chicago, Illinois. Cards for this purpose were enclosed with our announcement of February 10, 1961. If you do not use the special room reservation card, please be sure to state in your letter to the hotel that you are attending the LIA meeting.

Sincerely yours,

Secretary

EXHIBITS ON LEAD'S "NEW FRONTIER"

In keeping with the theme of this year's annual meeting there will be a display of new lead products--some experimental, some commercial--for inspection by members. Most of these will be in the back of the ballroom where they can be readily viewed before, between and after sessions on Tuesday and Wednesday, May 2 and 3. LIA staff members will be available to answer questions and explain the items on display. Among these will be the following:

Thermoelectric generator by Minnesota Mining and Manufacturing Co.

Model "spark pump" by Clevite Corp.

Pearlescent finishes on metal by Mearl Corp.

Ultrasonic cleaner by Branson Instruments, Inc.

"Acousti-Flex" by Brunswick Corp.

"Coustifab" by Corro Chemical Co.

"Actrol" by Chemical Coatings and Engineering Co.

Battery powered lawn mower by Lectro Lawnshear Corp.

Battery powered personnel carrier by E-Z-Go Car Corp.

In addition, a Henney Kilowatt battery powered passenger car produced by the Eureka Williams Company Division of National Union Electric Company, and a Cleveland Vehicle Company battery powered delivery truck will be available at certain hours at one of the hotel entrances for inspection and demonstration.

We hope all members will avail themselves of this opportunity to see these developments at first hand and to show their appreciation of the cooperation given us by the companies mentioned.

Note: This program is
subject to change
