

JEFFERSON UNIONS

with the
**RECESSED
BRASS SEAT**

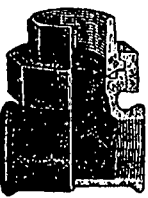

TYPES AND SIZES FOR EVERY NEED

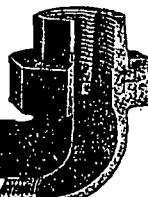

The Recessed Brass Seat... an exclusive feature of all Jefferson Unions... assures a permanently tight joint which can be made up leakproof without undue pressure. The metal-to-metal connecting parts of this seat are spherically ground. The seat itself is located away from the run way of the fitting. Threaded pipe ends cannot come in contact with the seat; no restriction to free flow is imposed. Complete details available on request.

The Jefferson line includes Specialty Unions which are available in 45° and 90° Union Elbow and Union Tees. They simplify piping installation and save pipe joints. Jefferson also makes Flange Unions.

All Female Union Tee with Union on Bottom. Made also in Male-Female Type.

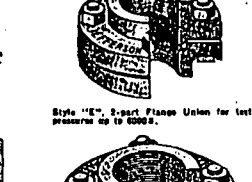

All Female Union Tee with Union on Bottom. Made also in Male-Female Type.

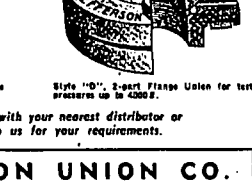

90° Elbow All Female. Made also in Male-Female Type.

Style "D", 3-part Flange Union for test pressures up to 5000 psi.

Style "E", 3-part Flange Union for test pressures up to 5000 psi.

Style "D", 3-part Flange Union for test pressures up to 5000 psi.

SPENCE ELECTRIC OPERATED VALVES

The Spence Type EM So-
lendid Operated Valve re-
quires only a small amount
of electrical energy and
can be used to positively
control a main valve. Made
in sizes 3/8" to 12" inclu-
sive.

Type EM Electric Operated Valve
