Subject: 1976 - 1977 Molding Powder Contract

Dear Mr. Forester,

Per our recent phone conversation, Square D Lincoln has decided to purchase enough molding powder to meet the 1,500,000 lb. total quantity on the 1976 - 1977 molding powder contract ending October 31, 1977. General Electrics letter of 10-3-77 sent by Bob Smith states that ~~you have shipped~~ to Square D 1,217,130 lbs. of material through 8-30-77. We are changing the ship date on order 40232 for 80,000 lbs. from November to 10-31-77 and ordering an additional 45,000 lbs. on order 40904 to reach the 1,500,000 lb. level by the end of October. I arrived at the additional 125,000 lbs. as follows:

1,217,130	- 8-30-77
19,600	- Rec'd 9-8 (IN 1217,130)
19,600	- Rec'd 9-15
19,600	- Rec'd 9-21
1,275,930	- Total Rec'd 9-30-77

Orders due through October 31, 1977 as of 9-30-77:

1,275,930	- Total Rec'd as of 9-30
20,400	- Due 9-19 order 39262
40,000	- Due 10-10 order 39905
40,000	- Due 10-31 order 39905
80,000	- Rescheduling order 40232 from Nov. to Oct. 31 ship
45,000	- New order 40904 scheduled to ship 10-31-77
1,501,330	- Total lbs.

We are considering our obligation to reach 1,500,000 lbs. of molding material on the 1976 - 1977 molding powder contract by October 31, 1977 completed with the above action. You should ship as much of the powder as possible in Bulk King Bags. The molding powder on order will run us at least until mid December, so the shipment of everything on October 28 to October 31 isn't a requirement from our standpoint. We will use the Bulk King Bags in production first so there will be bags returned in time to produce the next order required.

I assume that sometime in November you will send us the rebate check or be in the plant to present it if that is your wish. The amount of the rebate based on 1,500,000 lbs. should be in the area of $27,500 based on 4% of the average selling prices of the orders shipped during the period of the contract.

If you are not in agreement with any of the above details, please advise immediately.
