P. E. Heisler
W. G. Krummrich Plant

Following the answer to this complaint provided by you and Mr. E. E. Martin, the Krummrich Plant shipping group made a check of the points to which any containers of lot KB-603 had been sent and it disclosed only the Chicago District Warehouse other than that at Cleveland where the complaint originated.

We have checked with the Chicago District Office, and they find that there is no remaining stock of this particular lot. Any that was there originally has been shipped.

I believe that this accounts for all of the material that actually got out of the plant to any of our warehouses.
