Dutch Boy Paint makes all the difference!

**LASTS LONGER
PUTS OFF
REPAINTING
STAYS BRIGHT**

You can see the difference! Just look at the Dutch Boy homes around town. They look brighter, shiner, newer. And as painters know, using Dutch Boy makes a difference, too. It's smooth and easy to apply, covers well, has a great spreading rate, dries to an even, uniform finish. All without cost. And best of all, "Dutch Boy" is renowned for its long life, its protection and its resistance to fading, cracking, and peeling. This is why homeowners everywhere are calling "Dutch Boy" the five-year home paint.
