Limit on Standardization in Power Piping Equipment

ONE
SOURCE OF SUPPLY
RESPONSIBILITY
STANDARD OF QUALITY

For power plants and industrial power plants of tomorrow, Crane has a lot to offer. Now, when you are planning to rebuild or expand, count on the Crane line to help speed and simplify piping procedures—from design to maintenance.

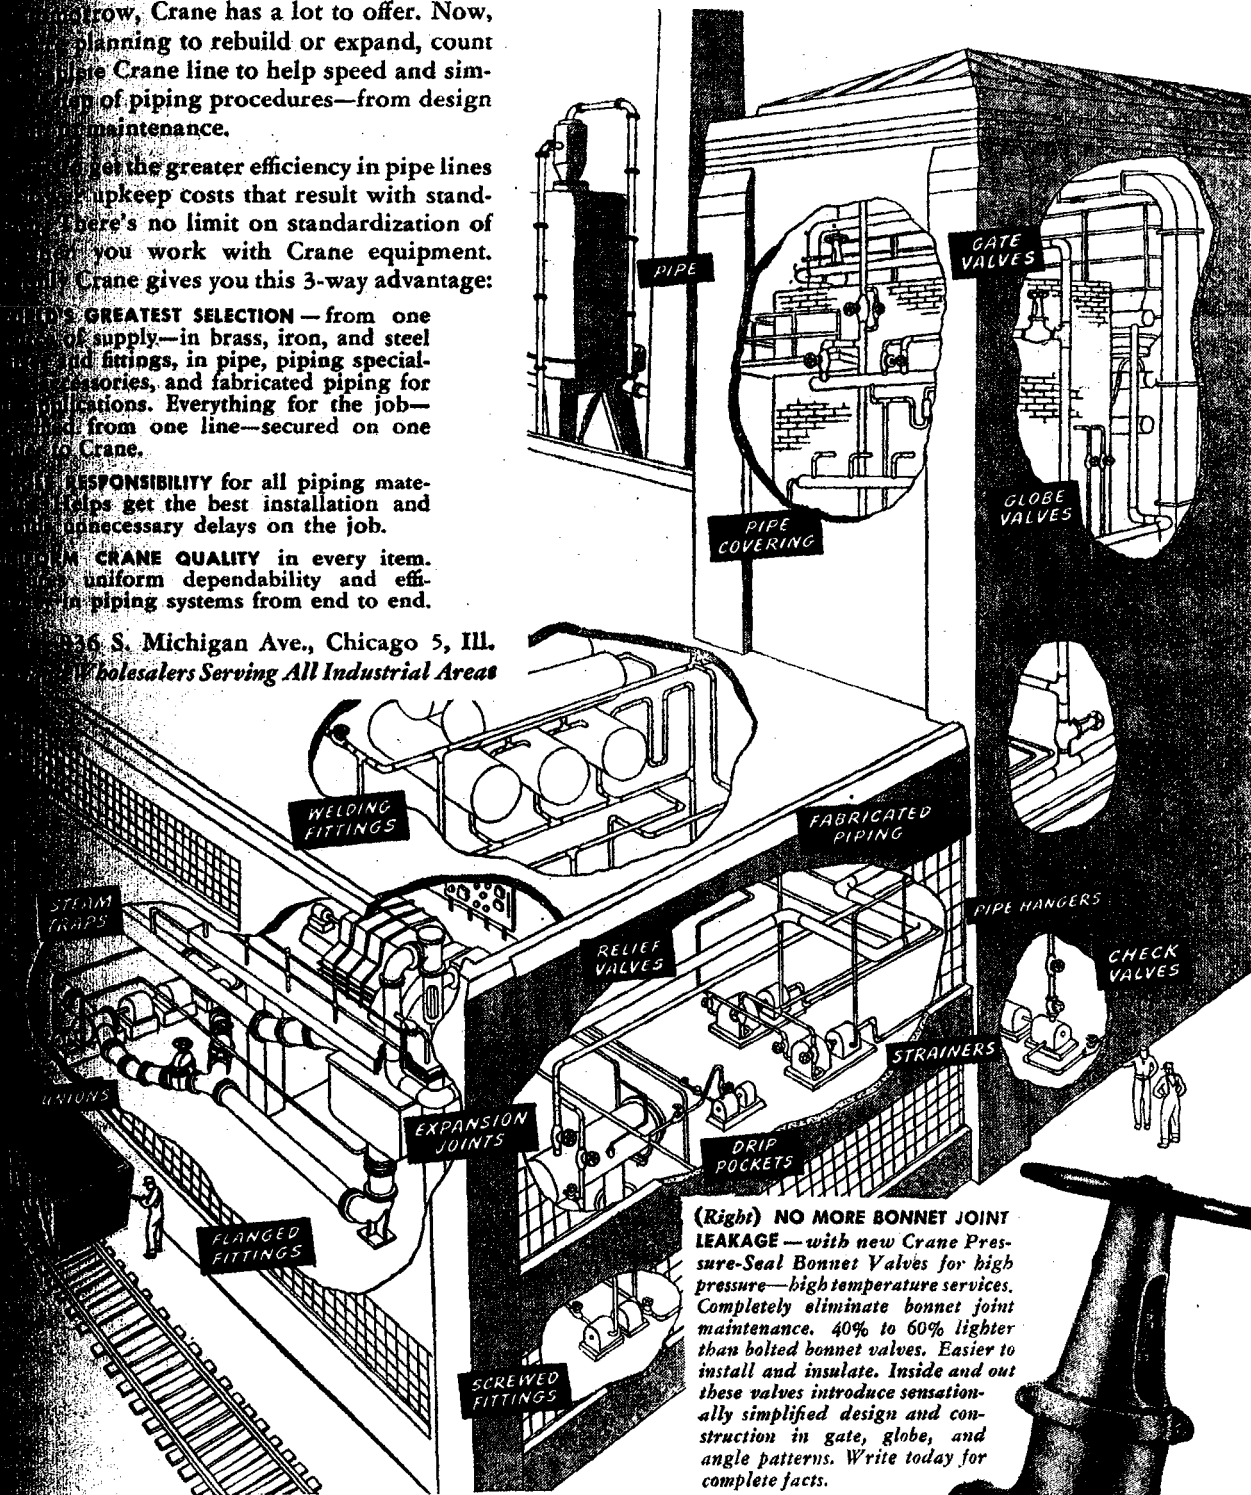

For the greater efficiency in pipe lines and lower upkeep costs that result with standardization. There's no limit on standardization of piping when you work with Crane equipment. Crane gives you this 3-way advantage:

CRANE'S GREATEST SELECTION—from one source of supply—in brass, iron, and steel pipe and fittings, in pipe, piping specialties, and fabricated piping for all applications. Everything for the job—secured from one line—secured on one name—Crane.

CRANE'S RESPONSIBILITY for all piping materials. Crane helps get the best installation and eliminates unnecessary delays on the job.

CRANE CRANE QUALITY in every item. Crane's uniform dependability and efficiency in piping systems from end to end.
