TO: ATTENDEES, EXHIBITORS, AND SPEAKERS OF THE 1985 SAE BRAKE COLLOQUIUM

Dear Participant:

Thank you for making the 1985 SAE Brake Colloquium a success. Enclosed is a list of the registrants from the conference.

Because of the success of this meeting, we would like to begin planning the 1986 Brake Colloquium. The dates have been set for October 20 - 22, 1986, and the Sands Hotel will again be hosting.

Suggested topics for next year's program include fiber toxicity, raw materials, processing/formulating/performance, cast iron-lining interactions, liability, end user response, telecommunications, data acquisition systems, on board vehicle simulations, friction excited oscillation, quality control, and SPC. The session topics will be finalized based upon the responses we receive.

If you are interested in speaking at the 1986 Colloquium or have any ideas for the program, please contact me at Ford Motor Company, Research Staff E1152, P.O. Box 2053, Dearborn MI 48121, 313/322-5518 or Laura Feix-Baker, Staff Engineer, at SAE, 412/776-4841 by February 1.

Sincerely,

Marvin Weintraub
