

*See letter to O'Brien Oil Co
This is the same case*

June 15, 1936.

Mr. T. E. Roman

My dear Tom:

I have your letter of June 8th addressed to Mr. Kaley concerning an employee of the Empire Oil & Refining Company.

One would be quite certain from the report on this man that while the trouble with his hands may be due to contact with gasoline, it has nothing to do with the presence or absence of lead therein.

I am, however, passing your letter on to Dr. Kehoe who may reply to you directly.

Very truly yours,

Graham Edgar.

GE/LEJ
