Dr. W. A. Kehoe
Univ. of Cincinnati, College of Med.
Metabolic Lab. of Applied Physiology
Eden Avenue
Cincinnati, Ohio

Dear Dr. Kehoe:

A letter from Dr. Philip Drinker to me on October 27th asked that I write you stating that he has accepted an article of mine entitled "Occupational Illnesses in Cotton Industries, II Chronic Respiratory Problems" and further suggested that the paper be presented at the spring meeting of the American Industrial Hygiene Association. From his letter I gathered that you were the Program Committee and if there is anything else that I could or should do, I would be more than happy to hear from you.

Yours very truly,

Wayne L. Ritter
