SUBJECT: Recent Communication With Akron Chemical Plant
Employees Concerning Work Environment in PVC,
Hycar, and Agerite White (ARW) Manufacturing Operations

During the week ending Sunday, March 16, 1974, meetings were held with Akron Chemical Plant employees at all levels to convey information regarding the subject. A meeting was also held with Local #5 U.R.W.A. officials for the same purpose.

Enclosed for your reference are resumes (3) of the information which was conveyed. The subject meetings were conducted by members of departmental and staff management, and all information was conveyed orally.

Feedback reveals that the meetings were received with considerable interest, and general appreciation was expressed for conducting same. Members of management in the plant are aware that any inquiries received from news media regarding the subject should be directed to Mr. John J. Bell, Director of External Communications and Public Affairs. (D/O114 - B/WHB-5)
