DU PONT HOUSE PAINT CLEANS ITSELF

Your home will be white... bright... attractive, next year and for years to come if you specify improved Du Pont No. 40 Outside White the next time you paint. Du Pont "40" actually cleans itself... sheds dirt and dust with every heavy rain. Normally, this "self-cleaning" begins in a few months on most surfaces. However, excessive soot and heavy shade, or stains from metal surfaces such as copper screening may interfere with, or delay, the process.

You get protection, economy, and beauty when your painters use Du Pont House Paint. Smooth, easy application, high hiding, excellent spread and long-lasting protection against rust,

rot and decay... all add up in your favor. "Self-cleaning" Du Pont House Paint is also available in light tints. If the surface is bare wood or badly weathered paint, ask your painter to apply a prime coat of new Du Pont House Paint Primer. It assures maximum adhesion and performance of the finish coat.

\$5.89 per gallon in 5 gal. cans

For Shutters and Trim—Fade-Resistant Du Pont DUREX Trim & Trim Finishes Outside trim and shutters keep their sparkle year after year... with extra-durable DUREX Trim & Trim. It resists mildew and fading... brushes on easily... covers solidly... dries tack-free. Your choice of three greens, browns, black, a new Blue and Bright Red that stay beautiful for years!

SEE YOUR DU PONT DEALER TODAY! For his name consult the classified telephone directory—classification "Paint"—or call EXbrook 2-6230.

SO EASY TO USE—so easy to clean! Steaks, chops, chicken, hamburger, frankfurters, fish—all taste delicious because of the latest in broilers that electrically "seal in" food flavors. Made of solid brass, heavy nickel-plated and then chrome plated they "come to the table" for more convenient broiling.

Whipped Cream From Cans

IF YOU have cans of evaporated milk in the refrigerator or on your pantry shelf you can always produce "whipped cream" for your favorite cake or dessert with very little advance notice. To whip evaporated milk—the milk, bowl and beater should be thoroughly chilled to about 40 degrees. If the milk fails to whip, it is not cold enough. Scalding the milk, prior to chilling, causes it to whip a little more readily and somewhat stiffer, but scalding is not absolutely necessary. To scald the milk, cover the unopened can with cold water. Bring water to a boil and continue boiling five minutes. Lemon juice can be added for even greater and "permanent" stiffness, when the lemon flavor is suitable to the food with which the whipped cream is to be combined. When lemon juice is used, first whip the milk until stiff. Then add two tablespoons lemon juice to every cup of milk. Continue whipping long enough to blend in the lemon juice. Evaporated milk has only about one fifth the amount of fat contained in whipping cream. Instead, it has a much greater content of whole milk solids. For that reason it is an ideal ingredient for desserts which complete an already rich meal.

Beef and Waffles

FOR SUNDAY NIGHT supper, a main dish of creamed chipped beef and waffles is a good choice. You can make enough of the sauce for four four-section waffles by using a quarter pound of chipped beef and two cups of medium white sauce.

Chicken Popovers

FOR A BRIDGE luncheon, serve popovers filled with creamed chicken and add a salad of asparagus vinaigrette on salad greens. The dessert might be a fruit cup and crisp chocolate cookies.

Liquid Measure

IN MEASURING liquids in cooking use a cup that has a space above the one cup mark. This will prevent spilling and you are less likely to skip in measuring liquids.

Clam Sauce

A SMALL CAN of minced clams is an excellent addition to a tomato sauce for spaghetti.

Thinking Of Mother?
Tell her you love her with the perfect gifts for Mother's Day... APLETS and COTLETS. As delicious as Mother's cooking... as sweet as Mother's thoughts of you... these different, tangy, refreshing confections are the distinctive gifts on special occasions.
