

FIFLOW® ATX – Instant Anti-Wrinkle Effect

Fiflow ATX Day cream (PFI109CS) containing 10% of Fiflow® ATX was applied on forehead of 50-year-old female. SEM-pictures of the forehead wrinkle was taken before and 5 minutes after the use of the cream.

SEM Picture: Wrinkle before Fiflow® Treatment.

Depth of the wrinkle measured 328um and width 884um.

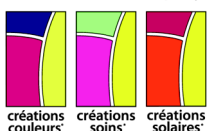

SEM Picture: Wrinkle 5 minutes after the use of Fiflow® cream.

Depth of the wrinkle 139um and width 476um.

Conclusions:

By using the Day Cream which contains Fiflow® ATX we were able to reduce the wrinkle size by half; depth was reduced from 328um to 139um and width was reduced from 884um to 476um.
