SUBJECT: DESIGN ENGINEERING SHOW
PHILADELPHIA, PENNA.
MAY 25-28, 1959

To Members of the Lead Industries Association:

Attached is a view of the Lead Industries Association recent exhibit at the Design Engineering Show at Convention Hall, Philadelphia, Penna., on May 25-28, 1959.

Considerable interest was shown in the many items exhibited in our display, particularly the panel describing lead for vibration and sound control, and we were extremely pleased with the results.

Sincerely yours,

Secretary
