RE: The Funkhouser Company - 7884 G - 11955 G - Renewal 5-21
Pennsylvania

This group has about 25% of their employees in quarries. Four of the deaths were due to lobar pneumonia and another death due to another respiratory disease indicating that there may be some silicosis hazard here. In addition there were three accidents, some of which may have been occupational. The current claim rate is 160% due to two claims.

As of the renewal date, May 21, 1950 it will be necessary to increase the rate from the present 7 to 7 + \$1. At the same time the Hospital rate may be reduced from 14.9% to 13% and the Health from 69% to 60%.
