REQUEST TO MONSANTO COMPANY
FOR SAMPLE QUANTITY OF PRODUCT
CONTAINING POLYCHLORINATED BIPHENYL ("PCB")

1. Name and address of organization making request:

The Ohio Cooperative Wildlife Research Unit

The Ohio State University
1735 Neil Avenue
Columbus, Ohio 43210

2. PCB product requested: Aroclor 1254

3. Quantity requested: 2 ounces

4. Reason for request: Research on the effects of small doses of polychlorinated biphenyls on bird reproduction.

5. Use to which sample of PCB-containing product will be put:

The PCB will be added to the diet of the experimental birds. The reproductive behavior and success of the captive birds will be monitored for 6 months.

6. Disposition to be made of any unused portion of sample:

Any unused portion will be deposited at the university's hazardous material storage site. The material will then be disposed by the people in charge of the hazardous wastes program.

MONS 096163

7. Names and brief description of educational background and job responsibility of person(s) who will be working with sample:

Dr. Gerald A. Grau - Ph. D. in Zoology; Assistant Professor. Adj., The Ohio State University and Research Biologist, U.S. Fish and Wildlife Service.

Reynaud Farve - Research Associate and candidate for Master of Science degree, The Ohio State University.

The undersigned organization represents that: the foregoing statements are true; it understands that if Monsanto elects to supply the requested sample of a PCB-containing product, Monsanto does so in reliance on the truth and accuracy of the foregoing statements; the person(s) designated by the undersigned organization who will be working with the sample is (are) aware that PCBs have been identified as a potential hazard to the environment and that regulations concerning their use or disposition are contemplated or may exist; that the label accompanying any sample will be read and cautions and instructions thereon will be observed; and that care is required in the disposition of PCB-containing products so as to avoid any adverse effect on human health and the environment.
